

# set the destroyer *watch it as it falls*

Originating in September 2004, four friends, three of them coming out of other musical projects, decided to form a band and explore sonorities in other musical styles. After 2 years and a half of playing as "What Would You Die For?" the band more mature and sure of its content decided to change the name to "Set the Destroyer" and take a more serious and decided attitude concerning music and their goals. In December 2006, Set the Destroyer recorded four songs at Little Creek Studio in Switzerland. The result enjoyed a great resonance among the hardcore scene and offered them the opportunity to sign Lucifer's Legions Records.

Set the Destroyer is at the moment creating and evolving harder and faster than ever before. Be prepared for the brutal invasion of SETs dominion.

Set the Destroyer is personified through the following four individuals:

22 - The Voice  
DeathSinc - Six String Samurai  
FortyDoom - Low Tone Frequency  
Hellmoth - Drums
